Profile Summary

Final-year B.Tech Computer Science and Business Systems student with hands-on internship experience in full-stack and Android development, automation, and AI/ML. Strong foundation in programming, backend development, data analysis, and system fundamentals. Seeking entry-level software engineering or internship roles.

Technical Skills

Programming Languages: C, C++, Java, Python, JavaScript
Web Technologies: HTML, CSS
Frameworks & Libraries: React, Django, Flask, Bootstrap, NumPy, Pandas
Backend & APIs: REST APIs
Database: MySQL
Data Visualization & BI: Power BI
Cloud Platforms: AWS (EC2, S3, IAM – fundamentals)
DevOps & Deployment: Docker, CI/CD
Tools: Git, GitHub, Linux, VS Code
Computer Fundamentals: DSA, DBMS, OOP

Education

B.Tech – Computer Science and Business Systems (CSBS)	2022 – 2026
• Techno India University, Kolkata	CGPA: 7.95
Class XII – Science	2020 – 2022
• Barasat P.C.S. Government High School	86.20%
Class X	2014 – 2020
• Rameswarpur Union Adarsha Vidyalaya	94.29%

Professional Experience

SWE Intern — Rajwada Infotech [Link]	May 2026 – Present
• Contributing to the development of enterprise-scale business management solutions using modern full-stack technologies, scalable architecture, secure API integration, and performance-optimized database workflows in a production environment.	
SWE Intern (Android) — Google – AICTE [Link]	Oct 2024 – Dec 2024
• Developed Android applications using Java, implementing UI components and activity lifecycle management.	
SWE Intern (AI-ML) — Google – AICTE [Link]	Jul 2024 – Sep 2024
• Applied machine learning techniques for data preprocessing, model training, and evaluation.	

Projects

MED-IN-INDIA [Link]	Healthcare Ecosystem
• Developed a healthcare platform connecting patients, doctors, and administrators.	
• Implemented appointment scheduling, payment verification, and hospital location services.	
• Integrated organ and blood donation management with a medical support chatbot.	
• Technologies: HTML, CSS, JavaScript, PHP, MySQL	
CivilierERP [Link]	ERP System
• Developed a scalable ERP platform for construction firms covering procurement, inventory, finance, and HR management.	
• Engineered RBAC, multi-level approval workflows, and real-time dashboards for enterprise-grade operational visibility.	
• Technologies: React, TypeScript, Node.js, Express, PostgreSQL, Redis, JWT, Docker	
Recipe GPT [Link]	Recipe Engine
• Built a recipe recommendation system based on available ingredients.	
• Developed responsive UI with backend integration using Flask and REST APIs.	
• Technologies: HTML, CSS, JavaScript, Flask, REST APIs, MySQL	
Anime Recommendation System [Link]	Recommendation System
• Built a recommendation system suggesting anime titles based on user preferences and popularity using filtering techniques.	
• Processed and analyzed datasets sourced from CSV files to generate recommendations.	
• Technologies: HTML, CSS, Pandas, Python — Data Source: CSV	
Amazon Clone [Link]	E-Commerce Platform
• Developed a full-stack e-commerce clone with product listings, search, cart, and user authentication.	
• Implemented core frontend functionality and user interaction flows.	
• Technologies: HTML, CSS, React, JavaScript	

Achievements

SkillsBuild AI Bootcamp Certificate — IBM [Link]
RPA Developer Foundation Certification — UiPath [Link]
Certification of Threat Modeling — Infosys [Link]
Python Beginners to Advanced Bootcamp — Udemy [Link]
Cyber Security Awareness Programme — NIELIT [Link]

Position of Responsibility

Public Health Program Volunteer — WHO NTDs 2021–2030 Roadmap Monitoring Initiative
Participant — EY Techathon 6.0 by EY & Unstop
Member — National Sports & Physical Fitness Board
