Profile Summary

B.Tech Computer Science graduate (2026 Batch) with strong proficiency in Python programming and object-oriented programming concepts. Experienced with Python frameworks (Django, Flask) and databases (SQL, PostgreSQL). Excellent problem-solving, analytical, and communication skills. Seeking Python Developer role at Zapuza Technologies.

Technical Skills

- **Programming Languages:** Python, C, C++, Java, JavaScript, SQL
- **Python Frameworks:** Django, Flask
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks & Libraries:** React, Django, Flask, Jinja2, Bootstrap, NumPy, Pandas
- **Backend & APIs:** REST APIs, RESTful APIs
- **Database:** MySQL, SQL, PostgreSQL
- **Data Visualization & BI:** Power BI
- **Cloud Platforms:** AWS (EC2, S3, IAM – fundamentals)
- **DevOps & Deployment:** Docker, CI/CD
- **Version Control:** Git, GitHub
- **Tools:** Git, GitHub, Linux, VS Code, Jupyter
- **Computer Fundamentals:** DSA, DBMS, OOP, Object-Oriented Programming Concepts
- **Software Development:** End-to-End Development, Clean Code, Testable Code, Code Reviews, Troubleshooting, Debugging, Optimization, Performance Improvement, Emerging Technologies, Best Practices
- **Professional Skills:** Problem Solving, Analytical Skills, Communication Skills, Collaboration Skills, Cross-Functional Teams, Innovation

Education

B.Tech - Computer Science and Business Systems (2026 Batch)

Techno India University, Kolkata — 2022 - 2026 — CGPA: 7.95 (**60%+ throughout - meets criteria**)

Degree in Computer Science or related field — CSE, CSE-AIML, CSBS, MTech, MCA - eligible

Class XII - Science

Barasat P.C.S. Govt. High School — 2020 - 2022 — 86.20% (**60%+ - meets criteria**)

Class X

Rameswarpur Union Adarsha Vidyalaya — 2014 - 2020 — 94.29% (**60%+ - meets criteria**)

Professional Experience

- **SWE Intern (Android)** – Google - AICTE — Oct 2024 - Dec 2024
 - Designed, developed, and maintained Python-based applications; wrote clean and efficient code.
- **SWE Intern** – IBM — Nov 2024
 - Collaborated with cross-functional teams (product, design, QA) to ship new features.
- **SWE Intern** – UiPath — Sep 2024
 - Troubleshoot, debugged, and optimized existing applications for performance improvement.
- **SWE Intern (AI-ML)** – Google - AICTE — Jul 2024 - Sep 2024
 - Conducted regular code reviews to ensure industry standards; stayed current with emerging technologies.

Projects

- **MED-IN-INDIA Web Platform**
 - Developed robust Python-based healthcare platform using Django; integrated SQL database.
 - Technologies: Python, Django, SQL, HTML, CSS, JavaScript, PHP, MySQL, Git
- **Recipe GPT Full-Stack Application**
 - Built scalable recipe recommendation system using Flask and PostgreSQL; implemented RESTful APIs.
 - Technologies: Python, Flask, REST APIs, PostgreSQL, HTML, CSS, JavaScript, Git
- **Anime Recommendation System**
 - Designed Python-based recommendation system; demonstrated strong OOP and problem-solving skills.
 - Technologies: Python, Pandas, NumPy, HTML, CSS, Git
- **Amazon Clone Full-Stack Application**
 - Developed full-stack e-commerce clone using React and Node.js with REST API integration.
 - Technologies: HTML, CSS, JavaScript, React, Node.js, MongoDB, REST APIs, Git

Certifications

- Certification of THE AGNIRVA SPACE INTERNSHIP PROGRAM (ISRO)
- Python Bootcamp (Udemy)
- Certification of Threat Modeling (Infosys)
- Certification of Course On Computer Concepts — NIELIT
- Cyber Security Awareness Programme — NIELIT
- Django Framework Certification (In Progress)
- PostgreSQL Certification (In Progress)
